HI TECH OIL – sterilizable

Lubricant for dental
and surgical instruments

- Validated for autoclave and heat sterilization
- Heat resistant up to 260°C
- Excellent protection against corrosion and oxidation
- Odorless, transparent and silicone free
- No staining and crusting on instruments
- Application tip 7mm
- Contains 12ml

HI TECH ÖL – sterilisierbar

Zur Pflege von Dental-
und Chirurgie-Instrumenten

- Validiert für Autoklav und Heißluftsterilisation
- Temperaturstabil bis 260°C
- Ausgezeichneter Korrosions- und Oxidationsschutz für Ihre Instrumente
- Geruchlos, transparent und silikonfrei
- Keine Fleckenbildung und kein Verharzen auf den Instrumenten
- Inhalt 12ml

INSTRUMENTS WITH TC INSERTS

To increase strength and hardness TC inserts are being welded into the working tips of our needle holders. By using this special material during tempering, a high HRC can be obtained which allows to achieve a perfect grind and an extraordinary lifetime of the instrument. Compared to other types of stainless steel instruments, needle holders with TC inserts are more sensitive to chemicals and require therefore special care.

INSTRUMENTE MIT TC-EINSÄTZEN

Für unsere Nadelhalter werden TC (Wolframkarbid) Einsätze verwendet, die bei der Härtung einen besonderen Härtegrad (HRC) erzielen, so dass eine aussergewöhnliche Lebensdauer der Instrumente garantiert ist. Im Vergleich zu normalen Edelstahl-instrumenten sind Nadelhalter mit TC-Einsätzen empfindlicher gegenüber Chemikalien und erfordern aus diesem Grund eine besondere Pflege.
